1.	Comment. At the beginning of January 1953, elements of the garrison in Fuerstenwalde including units of the 122d (?) Gds Engr Regt and, probably, the 24th Gds Mecz Regt of the 7th Gds Mecz Div	25 X 1		
	moved out. It was assumed that units of the mechanized regiment practiced at Lieberose, while those of the engineer battalion practiced in the area northeast of Beeskow. This assumption is			
	partly confirmed by the present report. It is believed that, after 6 February, the distribution of troops of the 7th	25X1		
	Gds Mecz Div in Fuerstenwalde was the same as it had been prior to the departure of troops. Warehouse No 3 belongs to the trade section of the division.	25X1
